February 2012

Hello,

WOW! Where did January and February go and where is winter? Not that I'm a big fan of lots of snow and cold, but I like snow just because it makes everything look so clean. And when the sun shines on the snow it appears sparkly.

Enough about the weather, since we can't do anything about it anyway; but some-thing we can all do is make our HCE year the best.

Hope everyone has had a chance to see the January lesson Soup or Sauce (SOS) Mix booklet. It sure has some nice recipes; plus, the fact that if you have bought any cream soups lately you will know that they are pricy, so just using the mix is a cost saving on the grocery budget. And who doesn't like to

save money.

I'll be teaching the cake decorating session at Craft Day on March 20th. I'm excited to teach you how to do this fun technique.

Also, remember our County Projects of the Infant Carrier covers and donations to SAFPARC. It's always a good feeling to know you are helping out someone who needs a little extra support.

Just a reminder that in May we will be getting together with Waupaca County to plan our next Fall Learn-In, so any ideas or suggestions of topics would be great. We also welcome new people on the planning committee.

Looking forward into the Lessons for the year we have some

good topics that can be of help to everyone so hope your club will participate also individual members are welcome at all of these.

As for Center I we are still looking for someone to be Center Chair person or you can co-chair with someone also. Anyone interested contact the Extension office. Looking forward to seeing you at Lessons or special programs offered.

Sincerely,

*Helen Raddant*

Helen Raddant,  
Shawano County HCE President

## Dear Shawano County HCE:

I would like to thank you once again for awarding me the 2009 Shawano County HCE Scholarship. It was a great help in offsetting the cost of my education, and it allowed me to pursue my dream of having a career in aircraft maintenance and restoration.

I can say with great pleasure that I began my dream career immediately after graduation from Fox Valley Technical College. I now work at the Experimental Aircraft Association in Oshkosh, WI. At the EAA, I maintain and inspect our touring B-17 Flying Fortress and Ford Tri-motor in addition to the museum's diverse collection of aircraft. We are also currently restoring a World War I era J-1 Standaard Biplane.

Thanks once again for the aid in completing my education. It is a great feeling to wake up every morning and be excited that I am able to work on such aircraft as a career.

Sincerely, Michael Peer

## POTPOURRI

*A sharing page of your ideas, recipes, jokes, stories, etc.*

### DID YOU KNOW

- \*Mosquito repellents don't repel. They hide you. The spray blocks the mosquito's sensors so they don't know you are there.
- \*Dentists have recommended that a toothbrush be kept at least 6 feet away from a toilet to avoid airborne particles resulting from the flush.
- \*The first product to have a bar code was Wrigley's gum.
- \*The king of hearts is the only king without a mustache.
- \*A Boeing 747's wingspan is longer than the Wright brother's first flight.
- \*Venus is the only planet that rotates clockwise.

### ARE YOU GETTING OLDER?

1. Old age is when it takes longer to rest than to get tired.
2. Middle age is when you have stopped growing on both ends, and have begun to grow in the middle.
3. Don't worry about avoiding temptation. As you grow older, it will avoid you.
4. You are getting old when "getting lucky" means you find your car in the parking lot.
5. By the time a man is wise enough to watch his step, he's too old to go anywhere.

### ACTION AND REACTION

Take a piece of wax, a morsel of meat, a handful of sand, a pinch of clay, and some wood shavings and put them on a fire. The wax melts; the meat fries; the sand dries up; the clay hardens; the shavings blaze. Although they are subjected to the same fire, each of the objects reacts in a different way.

This is a dramatic reminder of how individuals also react differently to the same circumstances. Subjected to hardship and despair, one person grows stronger, while others weaken or wither away.
